

Paul Jonson

Build your own Cigar Bow Ukulele

Building an electric Cigarbox Uke is like stepping back in time, and in no time at all you'll make the coolest old time instrument ever.

Paul Jonson of Sing'n Uke, Red Beach will provide the cigarbox kit sets for 12 lucky people, who will assemble them in the space of a workshop!

Cigar box guitars and ukes date back to the mid 1800's when folks had plenty of creativity, but not a lot of money.

Folk, blues and country legends started on them and now a modern resurgence has turned the cigar box into one of the biggest things in ukulele music today. No building skills are required, and Paul will guide you through the few steps needed to own your own cigarbox uke. You'll have the opportunity to dress it up with colors, or corners, or steampunk stuff; or simply keep it simple.
