

Paul Jonson

Plugged-in Classic Rock for Ukulele

Folk Rock and Blues songs generally suit adults with basic skill levels, and those with a high motivation to achieve more than your standard 4/4 time strum in the key of C will love this workshop. Most of the best classic rock songs have signature licks, riffs and chord progressions that identify them as soon as we hear them... Paul will break down the complexity, and simplify some of these signature tunes and their chord progressions. Those attending can expect to get acquainted with simple uke parts for some very well known classic songs. Even that standard key of C will come alive, and you'll never play your ukulele in the same way ever again.
