

Paul Jonson

Learn to play Cigar Box Ukulele

Whether you built your own cigarbox uke, or bought one, you'll be amazed at how easy it is to play. Paul will teach you the basic tuning, two simple techniques for playing slide, a few new chord shapes and how to play your new instrument in less time than you'd think. The simplicity will surprise you, as most people over-think how difficult it is because it sounds so great, and you'll actually be playing as a band within minutes.

Together we'll learn a couple of different parts for basic blues tunes, and enjoy the simplicity of it.

Paul made his first cigarbox uke many years ago and has bought and sold many since then. He's a talented craftsman and made his first guitar while at high school. He's also skilled in technical drawing and a graphic artist, so his designs are very creative. His mission in bringing folks this unique opportunity to build and play a cigarbox uke comes from his love of music and a desire to share it with others. After his workshops, you'll never play your ukulele in the same way ever again..
